

MOTE'S CORAL KITS

WHAT IS A CORAL KIT?:

Mote's Coral Kits are FREE, all inclusive hands-on material kits that come to you! Explore topics of Mote's coral reef research and restoration with your class using these ready-made lessons.

WHAT'S INCLUDED:

- FL State Standards Aligned Lesson Plan
- Hands-on Activity & Materials
- Google Classroom Link
- Virtual Materials including videos, worksheets, assessments, & more!

REQUEST TO CHECKOUT A KIT AT [MOTE.ORG/KEYSEEDUCATION](https://mote.org/keyseducation)

Mote's Coral Kits are a free, educational experience from Mote's IC2R3 lab to your classroom. There are 4 interactive lessons to choose from to teach students about coral reef biology and ecology, while highlighting Mote's cutting-edge research and restoration efforts on Florida's Coral Reef. Mote will provide all consumable and reusable materials for engaging, hands-on activities available for checkout by reservation (only available to local schools and homeschool groups within Monroe County School District). Dive in deeper with our virtual resources including vocabulary cards, activity extensions, behind-the-scenes videos, and Q&As with Mote scientists! Want to connect live with Mote educators and scientists? Request a live, virtual experience on the [reservation request form](#).

To checkout a Coral Kit:

- [Fill out the reservation request form](#) with your preferred dates
- Mote staff will contact you to confirm your reservation and arrange the drop-off/pick up
- You will receive a materials kit with class code for all online materials (make sure your school does not block access to outside Google Classrooms)
- Please follow all return procedures and Mote staff will pick up your kit

COVID-19 Procedures:

- All materials will be sanitized between checkout following CDC regulations
- Additional time will be reserved in between checkouts to allow for proper sanitizing
- Kits will be delivered and picked up to the school's main office, limiting any face-to-face interactions
- All lesson plans and worksheet materials will be provided via an online link (included in the kits)
